

WATER QUALITY RESTORATION / TMDL PLANNING SCHEDULE *

12/17/2004

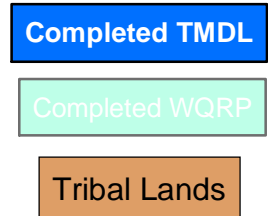

The map of TMDL planning areas in Montana has been revised in accordance with the Settlement Agreement entered by the parties in Friends of the Wild Swan et al., v. EPA et al., CV 97-35-M-DWM. The revised map is based upon a schedule for completing the necessary TMDLs for all waters on Montana's 1996 Section 303(d) List by December 31, 2012. The following watersheds have target dates for completing all necessary TMDLs no later than December 31, 2007: Swan (2004); Yaak (2005); Bitterroot Headwaters (2004); Blackfoot Headwaters (2004); Middle Blackfoot (2006); Flathead Headwaters (2004); Nine Mile (2005); St. Regis (2005).

Year to Complete TMDL

Status

100 Miles
